For the skill areas that you selected and/or the special competences that belong to them, we recommend answering at least one or two of the following questions in each case.

1. Questions about a more detailed understanding of the CAPTain results

- a. In which specific behaviour is the behaviour described by CAPTain evident today at the workplace?
- b. Are there situations where the behaviour described is especially clearly visible?
- c. Have you always displayed this kind of behaviour, or did you only learn it in the last few years?
- d. Would you find it easy to behave completely differently? In what way?
- e. Are there situations where you already behaved completely differently? What are they?

2. Questions about your personal assessment of the CAPTain results

- a. How happy are you personally with the behaviour described by CAPTain?
- b. What would you be happy to do differently in future? Why?
- c. What sometimes prevents you at the moment from behaving the way you would like to?

By answering this question, you will arrive at a final evaluation.

Are the desired behaviour skills already visible to a reasonable extent? Where and how?

Good luck!
